

**Manager, Electron Microscopy  
Core Facility  
Arizona Research Labs  
University of Arizona**

The University of Arizona's Arizona Research Labs (ARL) is seeking an outstanding candidate to serve as manager of the ARL Electron Microscopy Core Facility located at the Arizona Health Sciences Center (AHSC). The selected candidate will oversee day-to-day operations of the facility, select and maintain equipment, design techniques/protocols, and train/oversee users.

The AHSC and Main Campus Electron Microscopy Core Facilities are a University of Arizona resource. These facilities are equipped to provide both standard and specialized methods for transmission and scanning electron microscopy. The structure of the facilities is designed to accommodate the investigator who desires to undertake electron microscopy study. Projects are accepted with the approval of the facility manager.

Outstanding UA benefits include health, dental, vision, and life insurance; paid vacation, sick leave, and holidays; UA/ASU/NAU tuition reduction for the employee and qualified family members; access to UA recreation and cultural activities; state retirement; and more.
